CLIMATE justice and flooding in England

⑤
 [Impacts] capabilities [how] procedural justice [who] recognitive justice
 climate justice adaptation model

④
 grassroots: World People's Conference on Climate Change @ Cochabamba (2010)
 development theoretical
 academic: Schlosberg/Holland /Nussbaum/Steale/

③
 climate justice
 climate change impacted by are disproportionately least capacity to respond who have and responsible for emissions, positions that those least

①
 main claim: flooding is political
 main argument: technocratic governance has compounded existing inequalities

②
 main aim: apply climate justice to climate Adaptation in England
 The heat is on
 The impact of a 2C rise
 Seas could rise by an average of 56cm
 30m people in coastal areas could be flooded each year by 2055
